

# MEMORIES FROM OUR TRIP TO "COUNTY LINE APPLE ORCHARD"

On Friday, October 14<sup>th</sup> our students and their families visited County Line Apple Orchard. It turned out to be a beautiful sunny day after all the rain of the day before.

As we arrived to the orchard, we all visited the "petting zoo" and looked at and fed the animals. Children played in the barn and found their way out to the hay maze. After visiting the animals,

our group was ready for the guided tour. We learned about "pollination" and the amazing work of bees. We even did the "bee dance". After that, we all tasted some "yummy apple cider" and looked at how apples are washed, sorted and packed at the warehouse.

Following the visit to the warehouse, we had a hay ride to the orchard.

Everyone enjoyed looking at and picking the biggest and greenest apples our eyes could spot .

Once our bags were full of apples, we headed back to the wagon that took us to the picnic area where we had our lunch.

*It's been a wonderful experience for all of us and a healthy way to have fun for our students. Thanks a lot to all our families for coming with us!!!*

## THE HANG OUT!!
