MAY NEWS

The warm and sunny days are finally here. And believe it or not, the end of the academic year is just around the corner.

Our students are happy and excited to spend more time outdoors, enjoying the beautiful weather and thinking ahead to the fun we'll have over the summer weeks.

Our Summer Program begins June 7th and ends August 13th. We understand that during the summer children want to relax, enjoy the hot days, and most of all have lots of fun. AND WE AGREE!!!!!! But we also know how easy is to forget what we have learned if we don't review it regularly. Therefore, we have prepared a program that combines all these important things: fun activities and the opportunity to reinforce what children learned throughout the academic year.

In the morning, we will focus on such reinforcement of academic development with some exceptions [check your calendar]. And in the afternoon we'll be dedicated to enjoy the outdoors, playing with water equipment and working on fun projects based on the theme of the week.

As this month moves forward, our classes continue working hard and learning new things every day. As we always say at school, "no matter the day of the week, no matter the month or the weather, each day brings along new things to discover, to try out, and learn".

Should you have any questions regarding this month's calendar or the Summer Program schedule and activities, feel free to ask. We are here to help you.

HAVE A HAPPY, HAPPY MAY!!!
