

Children of the Earth Montessori School

Newsletter – November 2008

Greetings from a small school with great potential!

Since our school opened, just several weeks ago, we have been building our first classroom community as we get to know each other. If you should visit our school, you will observe an environment carefully prepared to provide children with the opportunity to develop interest and love for learning, sense of order, concentration, and independence.

Working together, cooperating with each other, and respecting one another are the three main elements that have been helping us, teachers, to teach the children positive attitude towards learning. The eagerness and energy displayed by our children is contagious.

November is the month of the Thanksgiving holiday. We are thankful for the students here at Children of the Earth Montessori School. Each one is a truly and unique gift. In addition, we are thankful for parents who know the importance of an early education for future success.

We welcome and look forward to working with new families to be part of the community we are building.

We are delighted to have you with us this year. We have a lot of good things in store for you!

Alejandra Keefe, Teresa Martinez, and Lissette Loy
